Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout	Yes	Proper spacing used.
2	Proper File Structure	Files and folders are logically organize	Yes	Logically organized.
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	Clear naming used.
4	Function / Method Names	Functions are descriptively named	Yes	Descriptive names used. Comments added for logic.
5	Code Comments	Inline and block comments explain log	Yes	Comments added for logic
6	Modular Design	Code is split into reusable functions/m	Yes	Reusable Functions Used
7	No Redundant Code	Duplicate or unused code is removed	Yes	Clean code maintained.
8	Error Handling	Exceptions and errors are handled gra	Yes	Exceptions handled.

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technolog	yWhere Reused	Reusability Level (High / Medium / Low)
1	app.py	Python (Flask)	Backend API Handling	High

2	best_credit_model.pkl	Python (Pickle)	Prediction Logic	High
3	model.ipynb	Jupyter Notebook	Model Training/Logic	High
4	home.html / index.html	HTML/CSS	Frontend Interface	Medium
5	result.html	HTML	User Response Display	Medium

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Well organized and modular.
Readability	5	Comments and naming are clear
Reusability	5	Modular functions are highly reusable.
Documentation / Comments	4	Well documented code logic.
Overall Score	4.5	Excellent quality.
